

<b>Title</b>	Sharing best practices and technologies to shape future strategies (Exhibition)
<b>Organizer</b>	Asian Forest Cooperation Organization (AFoCO)
<b>Type of event</b>	Exhibition, feature presentation and short interaction
<b>Venue</b>	Room 204-205
<b>Date/Time</b>	Tuesday, Wednesday, and Friday; 11:00-17:00
<b>Event description</b>	
<p>Respective countries in the region has best practices and technologies for forest and landscape rehabilitation. As one of the rehabilitation approaches, experiences on assisted natural regeneration may be considered. Customized forest information service can easily access useful data for various levels of end users from policy-makers to farmers. There are also existing technologies or facilities that provides measures to conserve biodiversity. In order to share such various experiences and technologies, relevant government agencies and public institutes will be invited to showcase best practices throughout the Asia Pacific Forestry Week. The participating agencies/institutes will have a scheduled presentation or promotional events on specific technology.</p>
