Organizer	Beijing Tsinghua Tongheng Urban Planning & Design Institute (THUPDI), and Korea Forest Service (KFS)
Type of event	Workshop; Seminar
Venue	Room 109
Date/Time	Friday, 21 June 2019; 11:00-15:00 (1-hr lunch break)
Event description	
<p>THUPDI is a wholly state-owned enterprise subordinate to Tsinghua University, under Tsinghua Holdings Co., Ltd. The main business focus on urban and rural planning and design, as well as research and consulting. The Institute is also an important component of the Institute for China Sustainable Urbanization of Tsinghua University. THUPDI has a number of professional qualifications including urban and rural planning, architectural design, landscape architecture, cultural relics protection survey and design, land use planning, etc. Department of Sustainable Planning under THUPDI is the pioneer and practitioner of UN's SDGs in urban and rural planning and design in China. Together with the event hosts and our partners, we would like to organize an event during the forestry week to discuss forest and ecosystem in the context of urbanization.</p>
