

<b>Title</b>	Tropical Peatland Monitoring
<b>Organizer</b>	Peat Restoration Agency (PRA), and World Resources Institute Indonesia (WRI Indonesia)
<b>Type of event</b>	Launch - publication, software, modules, etc.
<b>Venue</b>	Room 111
<b>Date/Time</b>	Wednesday, June 19; 11:00-12:30
<b>Event description</b>	
<p>The session will focus on aspects of monitoring of peatlands and restoration in Indonesia. We will discuss the technology and tools used by various stakeholders for peatlands monitoring. The session will be followed by the launch of Peatland Information Monitoring System (PRIMS), developed by Peatland Restoration Agency (BRG) and partners. The platform was developed to monitor the progress and effectiveness of restoration implementation as well as the state of peatlands in relation with fires, peatland clearing, and soil moisture.</p>
