

Title	Forestry and Resilience to Disaster Risks
Organizer	World Agroforestry (ICRAF)
Type of event	Discussion forum
Venue	Room 109
Date/Time	Wednesday, June 19; 15:30-17:00
Event description	
<p>This session will highlight examples of forestry and land use' contributions to building resilience to a host of environmental disasters, including technologies/approaches, policies, and systems for forest fire management, forest-biodiversity, invasive species, and forests and water management from a global IUFRO study. The session will tackle these topics in view of the SENDAI framework on disaster risks reduction, particularly in reference to priority 3, investing in risk reduction for resilience.</p>
