

<b>Title</b>	REDD+ Implementation through Various Approaches	
<b>Organizer</b>	Korea Forest Service (KFS), Ministry of Environment, Cambodia (MoE, Cambodia), and Mongolia UN-REDD Program (UN-REDD Mongolia)	
<b>Type of event</b>	Seminar	
<b>Venue</b>	Room 103	
<b>Date/Time</b>	Wednesday, June 19; 15:30-18:00	
<b>Event description</b>		
<p>This session will present and discuss current status and main challenges of REDD+ implementation of Asian countries. Presenters from active REDD+ implementing countries in Asia such as Vietnam, Cambodia and Laos will share their experiences of finding the best ways for effective implementation of REDD+ through various approaches. Also, Mongolia will share its special experience on implementing REDD+ in its boreal forests and its contribution to the world.</p> <p>The discussion will be led by Mr. Ben Vickers, Regional Coordinator of FAO, and country representatives from Japan and Myanmar, together with presenters of the event, will share their views on how the different approaches can create synergistic effect for REDD+ implementation.</p> <p>To emphasize the importance of REDD+ implementation in addressing climate change and express the countries' willingness to continue supporting REDD+, high-level officers from Korea, Cambodia and Mongolia will give the Opening and Closing Remarks.</p>
