

<b>Title</b>	Fair and Equitable Access to Land as a Prerequisite for Successful FLR	
<b>Organizer</b>	World Resource Institute (WRI)	
<b>Type of event</b>	Discussion forum	
<b>Venue</b>	Room 110	
<b>Date/Time</b>	Wednesday, June 19; 15:30-17:00	
<b>Event description</b>		
<p>In this joint event organized by WRI Indonesia and WRI India, we would like to discuss lessons learned from implementation of law and policy in several Asian countries towards strengthening community rights to land and forests and how the implementation is linked with forests and landscape restoration (FLR). What does it mean to have tenurial security and access to land in these countries? Are tenurial security and access to land really the prerequisites for successful FLR in the long term? What are the most pressing issues related to indigenous communities and gender in FLR and how can we address them?</p>		
<b>Time</b>	<b>Speaker / Panelist</b>	<b>Theme</b>
15:30-15:35	Moderator (Eli Nirmalasari, Peat Restoration Specialist, WRI Indonesia)	Setting the Scene
15:30-15:45	Alfi Syakila, Head, AWG-SF Secretariat	Overview of the context of tenurial security and access to land in the ASEAN region, with emphasis on the progress of social forestry
